# Boral™ Cool Roof System

5 components provide energy efficiency and give substantial return on your investment.

- Highly efficient material due to high thermal mass and insulating air space beneath the tiles
- Class A fire rated
- Durable & long lasting<sup>3</sup>

- Extremely strong polyester surface
- Self-adhesive for high wind areas and eliminates fastener penetrations
- Self-seals around tile fasteners
- Miami-Dade and Florida approved

- Provides ventilation naturally without electricity
- Elevates eave tiles with Elevated Batten System<sup>®</sup>
- Different styles fit Boral Roofing tile profiles
- Profiled styles are decorative and functional

- Provides effective thermal barrier and ventilation
- Prevents water damming
- Significantly less penetrations through underlayment
- 100% post-consumer recycled plastic pads

- Exhaust ventilation at the ridge
- Hidden beneath ridge tiles at the peak of the roof
- Butyl adhesive strips provide a weather-tight seal
- Molds to all tile profiles

**Energy Savings Every Year**

**22%** Reduction in heating and cooling costs<sup>2</sup>

**\$** Calculate how much you could save in your area by visiting [www.BoralRoof.com /About](http://www.BoralRoof.com/About) and clicking on the **Energy Calculator** button.

<sup>1</sup>Results based on a 22 square roof in Southern California with no additional energy efficient upgrades during an average annual weather pattern, annual inflation rate of 3%, and annual energy cost increase of 3.5%. Savings may vary based on location, weather and other factors. Savings estimates are based on comparison to similar size asphalt shingle roof.

<sup>2</sup>Steep-slope Assembly Testing of Clay and Concrete Tile with and without Cool Pigmented Colors, Oak Ridge National Laboratory, 2005. Results vary based on profile of tile installed, location, weather and other factors.

<sup>3</sup>Boral Roofing concrete and clay tiles are covered by Limited Lifetime Warranties - see our website [www.BoralRoof.com](http://www.BoralRoof.com) for details.

Asphalt Shingle

**139°**

attic temperature

Concrete Tile

**94°**

attic temperature

# Why Tile?

## NATURAL PROTECTION

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing standard Boral concrete roof tile to a common asphalt shingle. The result is less heat in the attic and lower energy bills.

### Sales Offices

**Phoenix, ARIZONA**  
**Corona, CALIFORNIA**  
**Lathrop, CALIFORNIA**  
**Stockton, CALIFORNIA**
